EXPERIENCE

Software Developer Focalworks Solutions Private Limited

03/2021 - Present

- Built projects from scratch for **Rupa Online** Integrated third-party modules and payment gateways Automated the selection of warehouses for order fulfillment reducing the Manual Assigning by **80%** Integrated headless architecture (**Vue storefront**) in Magento Optimized the faceted search filters for product recommendations for **TVS Eurogrip** website by **300ms** Researched and integrated sending of **WhatsApp notifications** on order completion in Magento
- In charge of production deployment.
- Country Based Ip detection and showing Components based on Country using **ipinfo** using Language codes
- Have been a Part of Revamping the **Wordpress Website to React(Next)** and Developing Components and reducing load by **3sec** using **StoryBlok**.
- Successfully Completed the B2b Project regarding developments related to **Sales Rep, B2b Registration, Sales Rep Commission, Custom Order Processing**.
- Worked on **Nest Microservices** Where the company had a requirement to connect multiple apps to microservice where all the Apis logics are present and main app will just handle requests and env Variables using **Vault**. Which reduces the overall code writing for multiple apps using almost same requests and db Structures.
